

Table of Contents

Introduction	1		
Educational Objectives	1		
Instrument Materials	2		
Care and Handling of New Instruments	4		
<u>Preoperative and Intraoperative Care and Handling</u>	7		
Introduction	7		
Sterilization Process	8		
Decontamination	8		
Sterilization Methods	9		
Steam Sterilization	10		
Steam Sterilization by Air Dilution	11		
Immediate Use Steam Sterilization	11		
<i>Table 1 Procedure for Preparing Instruments</i>	12		
<i>Table 2 Steam Sterilization Procedure</i>	13		
Ethylene Oxide Sterilization	13		
<i>Table 3 Gas Sterilization Procedure</i>	15		
Gas Plasma Sterilization	15		
Cold Sterilization (Germicidal Bath)	16		
Liquid Chemical Sterilization	19		
<i>Table 4 Cold Sterilization Procedure</i>	20		
Dry Heat Sterilization	20		
Quality Control for the Sterilization Process	21		
Monitoring	22		
Mechanical Monitoring	22		
Chemical Monitoring	23		
Biological Monitoring	24		
Care and Maintenance	25		
Documentation	25		
Manual Cleaning	26		
<i>Table 5 Procedure for Immediate Cleaning on the Sterile Field</i>	27		
		<u>Postoperative Care and Handling</u>	28
		Decontamination	28
		Sterilization Detergents	28
		<i>Table 6 Decontamination Procedure</i>	29
		Ultrasonic Cleaning	29
		<i>Table 7 Ultrasonic Cleaning Procedure</i>	31
		Lubrication	31
		<i>Table 8 Lubrication Procedure</i>	32
		Inspection	32
		<i>Table 9 Inspection Procedure</i>	32
		Identifying Stains	33
		Repairs	35
		<u>Instrument Storage</u>	36
		<i>Table 10 Storage Procedure</i>	37
		<u>Other Instrument Care</u>	38
		Demagnetizing	38
		Marking Instruments	38
		Instrument Care and Surgical Outcomes	38
		Possible Sources of TASS/TECD	39
		Disposable or Single-Use Devices (SUDs)	40
		<u>Environmental Responsibility</u>	41
		Appendix A: Guidelines for Policies and Procedures	42
		Appendix B: Sample Policy for Instrument Care and Handling	43
		Appendix C: Sample Procedure for Care of Diamond Blades	45
		Appendix D: Test Your Knowledge/Sample Post-Test	47
		Bibliography	52
